

Getting Started!

Welcome and Thank you for registering with TheDirectorsRoom.com!

Here's a quick checklist to get you started:

1. **Check your Profile** (See your username at the top-right-hand corner of the page? Click that and then the "Profile" link.)
2. **Add your school(s)** ("Schools" link at the top of the page)
3. **Add Students** (I be easier on your time and fingers if you'll encourage your students to self-register on StudentFolder.info. Once they add their information, you'll immediately see it here!)
4. **Add Ensembles** (Really? Yes! Our goal is to be your one-stop-shop for managing *all* of the thousands of data points which make up your program. Ensembles are a big part of that program.)
5. **Add to your Library** (What's an ensemble without music to perform? Enter your library information and we'll keep track of it here...and much more...)
6. **Check your organization memberships** ("Organizations" link at the top of the page. This is especially important if you've come here to register your students for an organization's auditions, for example, the NJ All-State Chorus!)
7. **Register your students for open Events** (User your student information from #3 above to quickly register your students for upcoming auditions. And, again, your students can again save you time and trouble by registering themselves at StudentFolder.info!)
